

# HUMAN FAMILY PORTRAIT

## ALPHAS parents

Draw a picture of your mother and father or attach a photograph. If you have brothers and sisters or grandparents, you could bring in photographs of them as well! It might be fun to create a poster of your family to share with your classmates.

## MOTHER

## FATHER

How many "pups" are in your "pack?"

What are their names?

Name some other members of your "pack." Grandparents? Aunts, uncles, and cousins? Who is older than you? Who is younger? Who makes the "rules" in your "pack?" Who follows those rules?

In a wolf pack, the members all contribute to the well-being of the "family." The same is true in the human family. Use the box below to name some things the members of your family do for one another. Perhaps you could draw some pictures, too!

Discuss with your classmates the reasons why younger members of a family follow the rules and guidelines of the older members.
