

THE WILD IN MY NEIGHBORHOOD

A **habitat** is the type of **environment** where a plant or animal lives. People live in many different habitats. Some live in **big cities** or in **small towns**. Some live in neighborhoods outside of cities. We call these areas the **suburbs**. Some people live in the **country** with lots of land around them but they do not grow plants or raise animals. Other people live on **farms**. They may raise animals called **livestock** and they may grow plants called **crops**.

Where do you live? Put a

the box by the picture of the **habitat** that looks most like where you live.

BIG CITY

SMALL TOWN OR VILLAGE

COUNTRY

People and animals need **shelter**. What type of shelter do you live in?

Put a

beside the shelter you live in.
